

1/2
4. (Amended) The system of claim 3 further comprising a transmission unit comprising a differential gear box disposed between said first and second wheels and adapted to be connected to said motorcycle drive unit.

1/2
18. (New) The system of claim 2 further comprising at least one spacer for a tool assembly track width adjustment.

1/3
19. (New) The system of claim 18 wherein the tool assembly track width adjustment allows independent wheel-spacing adjustment.

20. (New) The system according to claim 7 wherein said lifting mechanism comprises a lever and a pulley.

REMARKS

By this amendment, claims 1-8 and 18-20 will be pending in this application. Applicant submits the proposed amendments and new claims more clearly define the originally filed claims 1-8, and are supported throughout the specification.

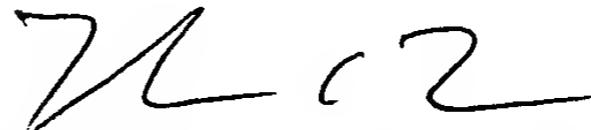

Support for the amendments to claim 2 may be found, for example, on page 4, lines 10-15 of the application as filed. Support for the amendments to claim 4 may be found, for example, on page 4, line 28 to page 5 line 1 of the application as filed.

Support for new claims 18-20 may be found, for example, in claims 15-17 as filed. In new claim 18, support for the spacer for a tool assembly track width adjustment may be found, for example, on page 9, lines 19-26 of the application as filed. In new claim 19, support for the tool assembly track width adjustment which allows independent wheel-spacing adjustment may be found, for example, on page 9, line 29 of the application as filed. In new claim 20, support for the lifting mechanism comprising a lever and a pulley may be found, for example, on page 8, lines 9-15 of the application as filed. Applicant submits that the aforementioned amendments to the claims introduce no new matter.

BEST AVAILABLE COPY

Entry of the foregoing amendments is respectfully requested. Applicants respectfully submit pending claims 1-8 and 18-20 are in condition for allowance and request an early favorable action.

Respectfully submitted,
